2. DELINEATION REPORT

2.1. Delineation Report

There are no changes.

3. SUSCEPTIBILITY ANALYSIS AND DETERMINATION

3.1. Susceptibility Analysis and Determination

There are no changes. There are currently no potential sources within the zones.

4. MANAGEMENT PROGRAM FOR EXISTING (PCS)

4.1. Management Program for Existing PCS

There are no changes from the original plan or PCS's identified in the original source protection plans.

5. MANAGEMENT OF FUTURE PCS

5.1. Management of Future Potential Contamination Sources

For future PCS's that move into the source protection area, the Leeds Domestic Water Users Association will contact the individual as they move into protection zones, include them on the inventory of PCSs, identify and assess current controls, and plan land management strategies if they are not adequately controlled.

There are no changes.

6. IMPLEMENTATION SCHEDULE

6.1. Implementation Schedule

There are no PCS's determined in the original source protection plans therefore there is nothing to implement.

Leeds Domestic Water Users Association will discuss this source protection plan during their monthly meetings that is held at the Rice Bank. They will discuss Management of Potential Contamination Sources and other changes that are needed to keep this source protection plan current. The minutes will be included in the recordkeeping section of this plan that is on file at the LDWA office.
