WATER USE REPORT TO STATE ENGINEER FOR YEAR OF 1963 (To be completed and returned by February 15, 1964)

STATE OFFICE	With the state of
	System LEEDS DOMESTIC MATERUSERS ASSN. System LEEDS DOMESTIC MATERUSERS ASSN.
Owner of Address	x(cds flate Su746
	title of person completing report R. C. Bentlen Sievelang sico:
A. Sy	ystem history and requirements
1.	New service connections added during 1963 (760
2.	Total of all service connections at end of 1963 12 5 Isame discaling the service connections at end of 1963
3.	What per cent of the total service connections are metered? $\frac{776}{6}$
4.	Total amount of water used during 1963 17, 777 224 gallons. (Please state if amount shown is in acre-feet, cubic feet, or gallons.)
5.	Date when peak-day demand occurred
6.	Peak-day amount used during 1963 (Please state if amount shown is in cubic feet per second, gallons per minute, etc. Identify the units.)
a	nicolth. . Was this peak- day amount
	(1) Only the quantity of water delivered to the distribution reservoir from all sources, or
	(2) Does it include a withdrawal from the distribution system reservoir storage?
	(Check which one applies.)
7.	Give the total storage capacity of your distribution reservoir in acre-feet or cubic feet or gallons. (Please indicate which volume measurement you are using.) $ \frac{6 C_1 C_2 C_2 C_3}{6 C_1 C_2 C_2 C_3} $
8	Are master meters installed between the intake or diversion and the distribution reservoir? $\frac{\sqrt{c}}{(\text{State yes or No.})}$
9.	Are master meters installed between your distribution reservoir and the distribution system? (State les cr No)
