WATER USE REPORT FOR 1969
(Please complete and Return by March 15, 1970)

Name of System LEEDS DOMESTIC WATERUSERS ASSN.

Owner of System SAME

Address BOX 687 LEEDS, UTAH. 84746

Name and title of person completing report A.A.EASTMAN SEC.

A. System history and requirements

1. New service connections added during 1969 2

2. Total of all service connections at end of 1969 62

3. What per cent of the total service connections are metered? 97

4. Total amount of water used during 1969 20,274,000 GAL METERED & ESTIMATED
(Please state if amount shown is in acre-feet, cubic feet, or gallons.)

5. Date when peak-day demand occurred SOME TIME IN JULY

6. Peak-day amount used during 1969 82,567 GAL ESTIMATED
(Please state if amount shown is in cubic feet per second, gallons per minute, etc. Identify the units.)

a. Was this peak-day amount

(1) Only the quantity of water delivered to the distribution reservoir from all sources, or

(2) Does it include a withdrawal from the distribution system reservoir storage?

(Check which one applies.)

7. Give the total storage capacity of your distribution reservoir in acre-feet or cubic feet or gallons. (Please indicate which volume measurement you are using.) 60,000 GAL.

8. Are master meters installed between the intake or diversion and the distribution reservoir? NO
(State Yes or No)

9. Are master meters installed between your distribution reservoir and the distribution system? NO.
(State Yes or No)

b. Remarks (new sources, meter trouble, etc.) MUCH TROUBLE KEEPING METERS OPERATING DUE TO WORK ON PIPE LI

(Over)

C. Water Sources

<u>Water Source Name</u>	<u>Water Right</u>	<u>Type of Measuring Device</u>	<u>Months Which Source was Used</u>	<u>Total Water Delivered into System During Year</u>	<u>Flow from Source into System During Peak Demand</u>
SPRING ON QUAIL CREEK	.13 CFS	INDIVIDUAL METERS	12	UNKNOWN (1)	UNKNOWN (2)

(1) Indicate whether quantity given is acre-feet, gallons, cubic feet, etc.

(2) Indicate whether flow figure used is cubic feet per second, gallons per minute, gallons per day, etc.
