MUNICIPAL AND DOMESTIC WATER USE REPORT FOR 1978
(Please complete and return by March 15th)

Name of system Leeds Domestic Waterusers Association

Owner of system Same as above

Address F. O. Box 627, Leeds, Utah 84746

Name and title of person completing report W. W. Schweer, President

A. System history and requirements

1. New service connections added during 1978 One

2. Total of all service connections at end of 1978 39

3. What percent of the total service connections are metered? 100%

4. Total amount of water used during 1978 Leeds 18,823,780 gal. 27,463,780 gal. total
Silver Reef 8,640,000 gal.
(Please state if amount shown is in acre-feet, cubic feet, or gallons.)

5. Date when peak-day demand occurred Mid-August 1978, exact date unknown

6. Peak-day amount used during 19 Unknown
(Please state if amount shown is in cubic feet per second, gallons per minute, etc. Identify the units.)

a. Was this peak-day amount

(1) Only the quantity of water delivered to the distribution reservoir from all sources, or

(2) Does it include a withdrawal from the distribution system reservoir storage?

(Check which one applies.)

7. Give the total storage capacity of your distribution reservoir in acre-feet or cubic feet or gallons. (Please indicate which volume measurement you are using.) Leeds tank 60,000 gal., Silver Reef tank 30,000 gal. Fire service tank 145,000 gal. Total 235,000 gal.

8. Are master meters installed between the intake or diversion and the distribution reservoir? No

(State yes or No)

9. Are master meters installed between your distribution reservoir and the distribution system? Yes, except fire service reservoir is below master meter

(State Yes or No)

b. Remarks (new sources, meter trouble, etc.) Both Leeds and Silver Reef meters are inoperative. Silver Reef meter is improperly installed. Both are being worked on. (OVER)

C. Water Sources

<u>Water Source Name</u>	<u>Water Right</u>	<u>Type of Measuring Device</u>	<u>Months Which Source was Used</u>	<u>Total Water Delivered into System During Year</u>	<u>Flow from Source into System During Peak Demand</u>
Oak Grove Spring, Leeds	.11 cfs Class A	Master meter but inoperative	12	18,823,780 gal (1)	Unknown (2)
Oak Grove Spring, Silver Reef	.10 cfs Class A	Master meter but inoperative	12	8,640,000 gal	Unknown
Well	.25 cfs limited to 50 acre feet			None	

(1) Indicate whether quantity given is acre-feet, gallons, cubic feet, etc.

(2) Indicate whether flow figure used is cubic feet per second, gallons per minute, gallons per day, etc.
